COUNTERTOP  
COLLECTION

CONTEMPORARY ½" FENIX® GRIGIO LONDRA

Introducing FENIX NTM®: the innovative, smart material designed for contemporary living. With an extremely matte surface, soft touch and anti-fingerprint, FENIX is the perfect material for a modern countertop in a kitchen or bathroom.

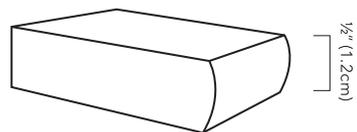

Made using next generation acrylic resins, FENIX countertops deliver extremely low light reflectivity resulting in breathtaking ultra-matte aesthetics. FENIX is made using a proprietary technology that creates a surface which is soft to the touch and anti-fingerprint, providing a luxurious centerpiece for your space with a premium feel that only requires simple everyday care. The thermal-healing properties of FENIX allow you to repair superficial micro-scratches meaning your FENIX countertops will look stunning for years to come.

FENIX countertops are available in nine colors and two unique constructions – Contemporary ½” and Classic 1-1/8”, allowing you to choose the perfect countertop for your home.

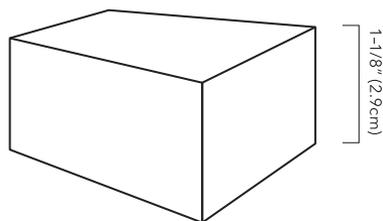

**Contemporary ½” FENIX countertops**

Solid FENIX is a contemporary top for the kitchen or bath. Featuring an ultra-modern ½” (1.2cm) profile, these countertops combine technical excellence with unmatched style. Made entirely from FENIX, these countertops are highly resistant to heat, impact, waterproof and compatible with undermount sinks.

**Classic 1-1/8” FENIX countertops**

Bonded FENIX countertops have a standard 1-1/8” (2.9cm) profile. These surfaces are durable, highly resistant to heat, impact and are water repellent. Bonded FENIX countertops are an effective way to bring all the benefits of next-generation FENIX surfaces into your home.

**CARING FOR YOUR FENIX COUNTERTOPS**

Cleaning FENIX means cleaning its structure. This can be done with warm water. As FENIX is a strong material, you can also use any household cleaner – even solvents like acetone\* if needed. To avoid damaging the structure, don't scrub with abrasive cream, a scouring pad or a hard brush; in the long-term, this might lead to a glossy spot on your matte surface. Instead, use a melamine sponge – also known as a magic sponge.

As a final step, to avoid anything staying behind in the structure – whether that's dirt or residue from the cleaner – always rinse afterward with warm water and wipe dry with a clean cloth.

Search for **FENIX Maintenance and Cleaning** on [fenixforinteriors-na.com](http://fenixforinteriors-na.com) to learn more.

\*always follow safety instructions
